Action Plan, SWOT & Next Steps

Technical Audit — Overview

SCOPE & METHOD

- 5 page types audited: Homepage, Hair Category, Lips Sub-category, Lipstick Product, Face Category
- Tools: PageSpeed Insights / CrUX, Web Developer outline, Rich Results Test, site crawler, SSL viewer
- KPIs: title & meta coverage, alt-text, schema, Core Web Vitals, HTTPS, crawlability, broken links

✓ Key Strengths

- HTTPS secured across all pages (Let's Encrypt)
- Clear URL hierarchy & logical site structure
- Organisation schema present on homepage
- Sitemap.xml and robots.txt both in place

⚠ Key Weaknesses

- Meta descriptions missing across all pages
- Title tags often omit the brand name
- Empty / missing alt text on many images
- Core Web Vitals failing (CLS) on every page
- No content hub; thin product/category schema

Title Tags

BEST PRACTICE

- 50–60 characters — longer titles get cut off in Google
- Lead with the target keyword
- Always include the brand name: "Product | Revlon"
- Unique per page to avoid keyword cannibalisation

FINDINGS

- Brand name missing on most category titles
- Keyword specificity can be improved site-wide
- Lipstick product page already has a strong title

Screenshot 1 — Homepage heading outline (H1: "Revlon US")

Screenshot 2 — Hair category title tag

Meta Description Tags

BEST PRACTICE

- 150–160 characters; no direct ranking impact
- Drives click-through rate (indirect SEO win)
- Include a call to action — "Shop now", "Explore shades"
- Mention the brand and a unique selling point

theme-color	#ffffff
twitter:card	summary_large_image
twitter:description	Makeup, nail color, hair color, and beauty tools. Check out our Revlon Collections including ColorStay™, ColorSilk™, PhotoReady™, Men's Series and more.
twitter:site	@revlon
twitter:title	Makeup, Hair Color, Nails, Beauty Products & Tools Revlon
viewport	width=device-width,initial-scale=1
X-UA-Compatible	IE=edge,chrome=1

FINDINGS — QUICK WIN

- Missing or unoptimised on all audited pages
- Google auto-generates low-quality snippets instead
- Zero technical work — just write & deploy copy

Screenshot 6 — Homepage meta description in search

theme-color	#ffffff
twitter:card	summary_large_image
twitter:description	Shop online for hair dyes to match your natural beauty. Our hair color line features products for root erase, permanent hair colors, highlighting and more.
twitter:site	@revlon
twitter:title	Hair Color: Hair Dye, Highlights, Bleach, Root Touchup & More Revlon
viewport	width=device-width,initial-scale=1
X-UA-Compatible	IE=edge,chrome=1

Screenshot 7 — Hair category meta description tag

Image SEO — Alt Text

WHY ALT TEXT MATTERS

- Helps Google index & rank images
- Improves accessibility for screen-reader users
- Unlocks traffic from Google Image Search

ISSUE & FIX

- Many images show "null" / empty alt attributes
- Google cannot understand the image content

RECOMMENDED ALT TEXT

alt="Revlon Super Lustrous Lipstick in Red Velvet shade"
alt="Revlon ColorStay Longwear Lipstick Berry Smoothie swatch"

Screenshot 11 — Homepage image / alt-text audit

Screenshot 14 — Lipstick product page image audit

Website Structure & Schema Markup

URL HIERARCHY

- Logical path: Home → Category → Sub-category → Product
- Clean, readable, keyword-friendly URLs

SCHEMA STATUS

- Homepage: Organisation schema present (good start)
- Category pages: missing BreadcrumbList & ItemList
- Product pages: no Product schema → no star ratings, price or availability shown in Google

Product

ItemList

BreadcrumbList

AggregateRating

Core Web Vitals Explained

Google's official page-experience metrics — a direct ranking factor since 2021.

LCP

Largest Contentful Paint

How fast the main content loads.

Target < 2.5 s

INP

Interaction to Next Paint

How fast the page responds to clicks.

Target < 200 ms

CLS

Cumulative Layout Shift

How much the page jumps while loading.

Target < 0.1

Across Revlon's pages, LCP and INP largely pass — but CLS sits above 0.1 everywhere, failing the overall assessment.

Core Web Vitals — By Page Type

Page Type	LCP	INP	CLS	Assessment
Homepage	2.4 s	81 ms	0.17	Failed
Hair Category	1.5 s	84 ms	0.11	Failed
Lipstick Product	1.6 s	121 ms	0.11	Failed

KEY ISSUES

- CLS is the consistent failure — layout jumps as fonts/images load
- Category pages slowed by many unoptimised product images (large LCP risk)
- Product pages hurt by large, uncompressed hero images
- Fix: compress + lazy-load images, reserve image space, trim render-blocking JS

Screenshot 23 — Homepage (PageSpeed Insights)

Screenshot 26 — Lipstick product page

Security — HTTPS

COMPLIANT

HTTPS active on all 5 audited pages — SSL by Let's Encrypt (valid May 6 – Aug 4, 2026).

WHY HTTPS MATTERS

- A confirmed Google ranking signal
- Non-HTTPS pages are flagged "Not Secure" in Chrome
- Encrypts customer data at checkout & login
- Baseline requirement — Revlon passes; no action needed

Screenshot 28 — SSL certificate (www.revlon.com)

Sitemap.xml & Robots.txt

ROLE

- sitemap.xml — the map Google reads to discover pages
- robots.txt — controls which pages Google may crawl

FINDINGS

- Both files present — essential foundation in place
- Sitemap lists homepage (priority 1.0) & sub-categories
- Confirm "Disallow: /" is NOT blocking the whole site
- Block admin / checkout / account; allow products & categories
- Submit the latest sitemap to Google Search Console

Screenshot 33 — Sitemap.xml (homepage entry)

Screenshot 35 — Robots.txt rules

Broken Links & Redirects

WHAT WE FOUND

- 1 broken outbound link on the site (404)
- 137 broken inbound links pointing to revlon.com
- Redirect chains (A→B→C) detected — slow & lossy
- 404s waste crawl budget; chains dilute link equity

RECOMMENDATIONS

- Fix every 404 with a proper 301 redirect
- Collapse redirect chains to a single hop
- Use 301 (not 302) for permanent URL changes
- Review Search Console Coverage report monthly

Content Strategy & Competitor Benchmark

VS. COMPETITORS

- L'Oréal — full "Beauty Magazine", strongest content SEO
- Maybelline — active tips hub & tutorials
- NYX — creator-led blog with strong TikTok tie-ins
- Revlon — weakest of the four; tutorials thin & not optimised

CONTENT GAPS

- No skincare or hair-care education content
- No trend-linked seasonal articles
- No creator / community content
- Tutorials don't target high-volume how-to keywords

Content Gap Summary — What Revlon Is Missing				
Content Type	Maybelline	L'Oréal	NYX	Revlon
Active blog/magazine	✓	✓	✓	Minimal
Step-by-step tutorials	✓	✓	✓	Limited
Skincare education	✓	✓	✗	✗
Trend-linked articles	✓	✓	✓	✗
Hair care content	✗	✓	✗	✗
Creator/community content	✓	✓	✓	✗

Screenshot 40 — Content gap summary vs competitors

Step 12: Popularity / Backlinks — Revlon		
Tool used: Ahrefs Free Backlink Checker		
Key Metrics Found		
Metric	Value	What It Means
Domain Rating (DR)	72 / 100	Strong domain authority — well-established site
Backlinks (total)	130K	Very high number of inbound links
Dofollow backlinks	91%	Excellent — majority pass SEO value to Revlon
Linking websites	7.9K	7,900 unique domains link to Revlon
Dofollow linking sites	83%	Most referring domains pass link equity

Screenshot 42 — Revlon content gap analysis

Popularity & Social Media Ecosystem

Screenshot 43 — Revlon social media followers by platform

WHAT IT MEANS FOR SEO

- Facebook & Instagram lead — strong branded-search presence
- LinkedIn solid (454K+): events, tutorials, campaigns
- YouTube underperforming (117K) vs millions for rivals — weak video SEO
- Pinterest near-absent (~1K) — a major missed opportunity for high-intent beauty shoppers
- Social shares → backlinks → higher domain authority (indirect SEO)

C

Screenshot — Google Ads Search campaign setup (ad strength: Good)

SETUP

- Search campaign targeting "revlon hair products"
- Ad strength rated "Good" — room to reach "Excellent"

OPTIMISATION OPPORTUNITIES

- Add more unique headlines & popular keywords
- Make descriptions unique & benefit-led
- Add sitelinks & callouts for more prominence
- Add descriptions to assets ('Search Products')
- Align ad copy with high-intent product terms

Footer Check & Overall UX

Footer Links

- Social profile links present (sameAs)
- Contact details exposed in schema
- Ensure legal pages: Privacy, Terms, Cookies
- Add quick links to key categories

Navigation & UX

- Clear top-level category structure
- Layout shifts (CLS) hurt perceived stability
- Slow image loads affect first impression
- Improve internal linking to deep pages

User Persona — Emily Carter

Emily Carter

Marketing Manager, NYC

Age 28 | \$75K income | Single

Demographics

- NYC-based young urban professional
- Annual income: \$75,000
- Lives alone, occasionally supports parents
- Marital status: Single

Psychographics

- Trend-conscious & brand-aware
- Socially active | Fitness & travel
- Interested in influencer content

Shopping Behaviour

- Monthly shopping + impulse buys
- Browses Instagram, TikTok, brand sites
- Prefers brand websites & retail stores
- Triggers: discounts, influencer recs

Pain Points & Needs

- High prices are a key barrier
- Inconsistent sizing frustrates her
- Wants authentic brand experience
- Needs reliable quality & trend relevance

Prioritised Action Plan

QUICK WINS <i>1–2 weeks</i>	MEDIUM PRIORITY <i>1–4 weeks</i>	STRATEGIC <i>1–3 months</i>
Write meta descriptions (all pages) Impact High Effort Low	Add Product schema (star ratings) Impact High Effort Med	Build "Revlon Beauty Edit" hub Impact V.High Effort High
Fix missing image alt text Impact High Effort Low	Fix broken links & redirect chains Impact Med Effort Med	Improve Core Web Vitals (CLS) Impact High Effort Med
Add brand name to title tags Impact High Effort Low	Submit sitemap to Search Console Impact Med Effort Low	Launch Pinterest + revive YouTube Impact High Effort High

SWOT Summary

STRENGTHS

- HTTPS across all pages
- Clear site structure & URL hierarchy
- Homepage schema + strong lipstick title
- Brand heritage (90+ yrs) · LinkedIn 454K+

WEAKNESSES

- Missing meta descriptions & brand names
- Empty alt text on many images
- Core Web Vitals failing (CLS)
- No content hub · weak YouTube & Pinterest

OPPORTUNITIES

- Beauty content hub for how-to keywords
- Optimise meta + add full schema coverage
- Pinterest (high beauty purchase intent)
- Revive YouTube · close hair-care gap

THREATS

- L'Oréal & Maybelline dominate content SEO
- NYX winning TikTok & creator audience
- Competitors have full alt-text coverage
- Slow speed vs mobile-first indexing

Conclusion & Next Steps

Solid technical foundations — HTTPS, sitemap, homepage schema. The biggest upside is a structured content strategy that recaptures traffic currently going to L'Oréal and Maybelline.

TECHNICAL PRIORITIES

- Fix Core Web Vitals (CLS) site-wide
- Add Product & Breadcrumb schema
- Repair broken links & redirect chains
- Complete metadata & alt-text coverage

STRATEGIC PRIORITIES

- Build the "Revlon Beauty Edit" content hub
- Grow Pinterest & revive YouTube tutorials
- Optimise Google Ads (headlines, sitelinks)
- Target high-volume how-to keywords
